Abilition to Storage Building Relocation of Proposed Storage Room

Mann to Asting Chief, RECD from Project Engineer dated 29 November 1957, on same subject

- 1. The reference memorandum presents reasons for relocating the proposed new storage room on the first floor of the existing terds Center Cosm one side of the "processing error A" to its opposite side. It is further recommended to narrow this space up by \* for construction reasons; elso, cover the existing vire much well with wood or metal for a beight of 7' 4" in lieu of constructing a new masonry wall.
- & It is requested that you review this matter and give us your suproval and/or comments. It would be appreciated if you could inform we of your degines on this as early as possible, since the contractor is now in a position to order meterial and process the work.
